LANGUAGES

Korean

PROJECTS

pinch of salt

- Food expert app prototype created in UX course
- Carried out user research, collecting insight to create user personas
- Started from low – fidelity wireframes to a high – fidelity prototype using grid systems, focusing on UI design as well
- Conducted usability testing, incorporating feedback into design iterations

QuiVo

- Vocabulary app created during CareerFoundry intro course
- Conducted competitor analyses and user research to identify pain points
- Performed user testing with mid – fidelity prototype

EXPERIENCE

English Language Instructor

NOV 2018 – NOV 2019

Chungdahm Learning

- Taught English language to Korean students, ranging from 1st to 5th grade, focusing on speaking and writing skills
- Conducted one – on – one coaching sessions to help students with sentence structures and grammar
- Created writing samples to guide students in their descriptive writing skills, improving their abilities in brainstorming ideas
- Worked closely with native teachers, reporting students' skills and behaviors with daily evaluations

Research Assistant

AUG 2017 – NOV 2018

Emory University

- Assisted with data entry, using databases for statistical analysis with SPSS
- Transcribed audio recordings of participant research interviews, maintaining accuracy for qualitative data
- Reviewed and prepared questionnaires for participants, collecting demographic and background information

Database Management Assistant

OCT 2015 – MAY 2017

Emory University

- Created personnel and administration databases with FileMaker Pro, from designing layouts to implementing use of database
- Performed various administrative tasks including filing and scanning documents

Office Assistant

MAY 2016 – AUG 2016

Emory University, Goizueta Business School

- Provided clerical support, managed phone calls and greeted interviewees
- Aided directors with projects involving data management
